## **ALQUIPPA SCHOOL DISTRICT LITERACY MISSION**

Success begins with high expectations. The Literacy Mission of the Aliquippa School District is to take the potential students have to achieve extraordinary literacy gains and make that potential manifest a reality for all students.

## **SCHOOL WIDE POSITIVE BEHAVIOR PLAN**

The mission of the Aliquippa School District's School Wide Positive Behavior Plan is to establish clear guidelines for academic and social behavior and use discipline in a positive, supportive, logical, and consistent manner.

The principles of focus, responsibility, respect, inspiration, education, and success are foundational beliefs that should motivate all interactions within our community. To that end, this systematic school wide positive behavior plan that creates a welcoming climate that is physically and psychologically safe will remind our children to always STRIVE.

## **ACCEPTABLE USE POLICY**

### **Common Sense Acceptable Use Policy for Aliquippa School District Technology Users Introduction**

The Children's Internet Protection Act (CIPA) requires schools to establish Internet Safety guidelines for the appropriate use of computer networks. The Aliquippa School District makes available to trained staff and students the global resources of the Internet, as well as the computer resources of our local area network. Through technology resources, educators and students can communicate with others, share resources, search databases, and retrieve useful information. A student account is provided at no charge to the School District for Internet use, and are bound by the Acceptable Use Policy.

The Internet is to be used for educational purposes only. In accordance with the Children's Internet Protection Act (CIPA), the Aliquippa School District will take all measures to:

1. prevent the district's network access to or the transmission of inappropriate information via the Internet, electronic mail, digital folders or other forms of electronic communications;
2. prevent unauthorized access or inappropriate online activity;
3. protect against online disclosure, use or sharing of student personal information;
4. provide Internet safety education to all students.

Aliquippa School District takes reasonable steps to ensure that students do not have access to potentially harmful content. The district utilizes a content filter that monitors and blocks potentially harmful content such as pornography, child pornography, sexual acts, obscene material or other materials deemed as harmful to minors. The district may override this protection for a student if it wrongly blocked legitimate educational sites.

The Aliquippa technology staff monitors student use of the Internet by checking history if there is reasonable cause for concern, and/or direct supervision to ensure that the network is for instructional and educational purposes. In addition, the district maintains reasonable precautions to prevent "hacking" or sabotage of the network's confidential information. These precautions include firewalls, password policies, data encryption where possible, and security monitoring.

The District provides instruction to students for appropriate use of the Internet including, but not limited to, net-etiquette, online behavior, cyber bullying awareness, social networking safety and other privacy or security issues.

Aliquippa School District, even with the above precautions, cannot guarantee that a student or a staff member will not abuse the system or gain access to inappropriate material.

## **COUNSELING SERVICES**

Aliquippa Elementary School Counseling Services are provided to all children, kindergarten through grades six. The School Counselor depending on the student, situation or need, works with students both individually and in small groups.

Classroom teachers and the counselor work cooperatively through classroom observation, consultation, sharing information and cooperating on referrals for students with special needs.

Consulting with parents is also an important part of the service. Some of the counseling activities include consulting with parents regarding their children, providing parent meetings for special purposes such as test interpretation, pre-school orientation, and providing programs for parents of children with specific needs.

## **GRADING**

## **ATTENDANCE POLICY**

### **Key Terms:**

**Truant** shall mean having incurred three (3) or more school days of unexcused absences during the current school year by a child subject to compulsory school attendance under this article.

**Habitually Truant** shall mean six (6) or more school days of unexcused absences during the current school year by a child subject to compulsory school attendance under this article.

**Insufficient Attendance** shall mean twenty (20) or more days of unexcused absences accumulated throughout the school year.

### **ATTENDANCE GUIDELINES**

No individual student absences will exceed twenty (20) illegal days in any school year. If a student exceeds the maximum number of allowable absences, that student will receive failing grades in all subjects for the school year. The failing grades will be recorded as insufficient attendance. After ten (10) illegal absences the Aliquippa School District will contact Children & Youth Services of Beaver County.

Days not counted towards the twenty (20) day limit:

- Religious holidays
- Out of school suspensions
- Illness: dates of the illness must be confirmed. Validated doctor's excuse presented within three (3) days after that student's return to school.
- An excuse that has been approved by the principal/designee for other urgent reasons, however, verification must be presented immediately upon that student's return to school or that absence will be considered unexcused.

### **DEFINITION OF QUESTIONABLE ABSENCES**

Please note that the mere fact that a parent has sent a written explanation to the school does not necessarily mean that the absence is excused. A claim of continued or repeated illness without verified medical proof of the student's condition is a "questionable absence." Cases of erratic, general explanations or patterned absences would be "questionable." An excuse that simply states, "please excuse my child from being absent because he/she was sick" is too general in nature to be accepted. The excuse should specifically state "please excuse my child for being absent because he/she had the flu, there was a death in the family, etc."

No excuses will be accepted that state the student had a doctor's appointment, court hearing, etc. without written proof from the appropriate facility. Also, excuses will NOT be accepted after three (3) days of the student returning to school. After nine (9) written excuses, the parent will be required to turn in medical documentation for the remainder of the school year.

#### **A. Unexcused, Unlawful absences:**

1. An illegal excuse would be marked illegal and unlawful for those children under the age of 17 (Compulsory Regulations).
2. An illegal excuse would be marked unexcused for those children 17 years or older. For example:
  - a. Truancy: absence without parental knowledge
  - b. Illegal Employment: working during school hours
  - c. Parental Neglect, such as:
    - i. Child overslept.
    - ii. Child was visiting away from home
    - iii. Child missed the bus, etc.

#### **B. Excused Absences:**

1. Illness: excuse should be specific in stating what illness is or was. Medical verification may be required.
2. Quarantine: the local health department must authenticate this type of excuse.
3. Death in the immediate family: the excuse should be specific, general descriptions such as, "death of father, uncle or grandmother."
4. Impassable road: reason that would make travel to school impossible (i.e., landslide, flood, traffic accident, etc.)
5. Excused on emergency permit: usually handled through Administrative channels.
6. Exceptionally urgent reasons: handled through Administrative channels.
7. Religious holidays.

#### **PROCEDURES:**

1. Students will be considered truant after the initial 10-day enrollment period. Therefore, for the 2017-2018 school year, students will not be considered truant until they accumulate unexcused days beginning on September 11, 2017.
2. After a child incurs three (3) school days of unexcused absences, the Home/School Visitor will notify the person in parental relation within 10 days. The notification will be a documented phone conference outlining the consequences if the child becomes habitually truant. The mode of the call must be in the language preferred by the person in parental relation. The conference may include the offer of a School Attendance Improvement Conference.
3. A follow-up letter may be issued to those families with a history of attendance issues. A School Attendance Improvement Conference may also be requested for these focus families.
4. After a child incurs six (6) school days of unexcused absences, The Home/School Visitor will schedule a School Attendance Improvement Conference. A Truancy Elimination Plan will be developed at this conference and kept on file. The following will be invited to the conference: the child, person in parental relation, other individual(s) identified by person

- in parental relation as a resource, appropriate school personnel, and recommended service providers. Note: Building principal(s) may be invited to the conference, however attendance is not a requirement.
5. The School Attendance Conference must occur even if the parent declines to participate or fails to attend the scheduled conference. The school, however, must make every attempt to notify the family of the conference. If the parent fails to attend, the plan will be mailed to the family. If a parent refuses to sign the plan, that refusal will be reported to the Magistrate.
  6. No legal action will take place until the scheduled date for the School Attendance Improvement Conference has passed. Additionally, the school will not issue any form of suspension, disciplinary reassignment, or transfer due to truant behavior. A conference is required before a referral to Children and Youth Services and/or filing a citation with the Magistrate.
  7. A student who is habitually truant, must be referred to the SAP team. All SAP attendance referrals will be monitored by the team and determinations will be made for improvement plans, citations and CYS referrals. Students who are deemed to have insufficient attendance will be reviewed to determine possible retention.
  8. Each building SAP team will receive a monthly report of citation hearings and the outcome for each. This will be provided in writing to the team by the Home/School Visitor.
  9. Once a student reaches fifteen (15) days of unexcused absences, charges will be filed with the Magistrate. Citations will no longer be signed by the Superintendent. Building principals will sign all citations. Since the school must prove beyond a reasonable doubt that a child was habitually truant without justification, the building principal(s) will give approval prior to a citation being issued.

### **STUDENT ENTRIES/WITHDRAWALS**

A secretary in each building will be given the assignment of entering new students, as well as withdrawing current students. The building principal(s) will approve all students entering and withdrawing.

If there is a residency question, the secretary and/or building principal(s) will refer those families to the Home/School Visitor. Once residency is determined, the Home/School Visitor will report back to the building principal(s) for approval.

Habitually truant students, specifically those that incur 10 or more consecutive days, will be reviewed by the SAP team in each building. At that time, the building principal(s) may determine that it is necessary to drop such students from the attendance rolls.

**Note:** Even though it has been determined that a student has failed for the year due to his/her insufficient attendance, the student must continue to attend school; Section 1327 & 1333 of the Public School Code of Pennsylvania (Compulsory Attendance)

**Any student, who is caught skipping school based upon information received by the Home & School Visitor, will have charges filed with the District Justice.**

### **SECTION 11.25 -ILLNESS OR OTHER URGENT REASONS**

Every principal or teacher may, upon receipt of satisfactory evidence of mental, physical or other urgent reasons excuse a child for nonattendance during temporary periods, but the term urgent reasons shall be strictly construed and shall not permit irregular attendance.

School Administrators' Handbook: Explanation of Other Urgent Reasons for Absence, Section 113-423; When the excuse reads, "Please excuse my child for being absent because of an emergency," the term "other urgent reasons" lack valid interpretation. The term very clearly implies that the reasons must be serious and must be specified, such as: impassable roads, quarantine, death in the immediate family, or weather so inclement as to endanger the health of the child.

### **EARLY RELEASE**

Any student leaving school before 12:00 p.m. will be charged with an early release half day unexcused, which **WILL** count against the student's attendance. However, if proper medical documentation is provided that day or the day after the student will receive an excused absence 1/2 day. After three (3) early releases have occurred a letter will be sent to the parent guardian informing them of the Districts Attendance Policy. **Parents should not call to excuse students.**

### **Attendance Related Problems**

The state attendance laws deal with children until they reach 17 years of age. Therefore, we deal differently with students depending upon whether they are under age 17 or if they are 17 years of age or older. "Attendance Related Problems" fall into one or more of the following categories:

- Absence from school—excused
- Absence from school—unexcused
- Absence from class—verified
- Leaving campus without authorization
- Absent on bulletin in school
- Tardy to school

### **SNACKS**

Due to the excessive amounts of outside snacks (including but not limited to: Polar Pops, large bags of chips, and candy), we are prohibiting bringing them into school. If they are a part of your child's lunch, we know the regular sized snacks will fit into a regular sized lunch tote or bag.

### **HOT LUNCHES**

We certainly understand that students can forget their lunch. If you must bring your child's lunch to school, it can **NOT** be from any fast food restaurants. Lunches not meeting this criterion will not be accepted.

### **FIELD TRIPS**

Individual teachers schedule field trips as part of the academic program. Students may be denied the opportunity to attend field trips based on poor attendance, discipline or academic effort. Administration and the teacher will make the decision.

### **BIRTHDAYS**

Birthdays will not be celebrated individually. Teachers now have the option to have group birthday celebrations. If a teacher chooses to do so, he/she will contact parents/guardians with details.

### **INVITATIONS**

Invitations are not permitted to be distributed in school unless the entire class is being invited. Our goal is to foster a sense of community and family at Aliquippa Elementary School and instituting a no invitation policy helps to encourage that.

### **TARDINESS**

Tardiness is always one of the major problems in any school district, including the Aliquippa School District. The Aliquippa School District feels that habits of tardiness that are not corrected in the earlier years will continue to worsen and possibly become a major problem for the child in his/her adult life. Therefore, the following procedures have been established in an effort to correct this problem.

A student will be considered tardy to school if he/she does not report by 8:35 a.m. each morning. Students arriving after 8:35 a.m. should be accompanied by a parent/guardian have a written excuse from a doctor or other health caregiver. Accumulated tardy minutes will be totaled, and the time will be converted into days of truancy.

- First tardy - Verbal warning
- Second tardy - Verbal warning
- Third tardy - A telephone call to the home from the Attendance Secretary
- Fourth tardy - Verbal warning and a telephone call to the home.
- Fifth tardy - Home Visit by School, if necessary, a referral to Children and Youth Services (CYS) will be made. This must then be documented.

**Note:** After the fifth tardy, the process is repeated. A new cycle begins when the second semester starts on January 9, 2018. For truancy purposes, tardy minutes will be added up and converted to illegal days of absence.

## **TIPS FOR PARENTS TO AVOID TRUANCY**

- Make education a family priority.
- Emphasize the role education has in giving your child opportunities.
- Ask questions about school each day.
- Help your child with homework and read to your child each night.
- Help your child to develop good study and work habits.
- Schedule daily home study time.
- Help with homework when needed.
- Trouble with a particular subject can undermine a child's desire to attend school. Get your child help with subjects that pose difficulties.
- Help your child identify a list of academic goals for the year.
- Develop a phone-in policy with the school to check on your child's daily attendance, or have the person in charge of school attendance alert you about non-attendance.
- Explain how dropouts have more trouble getting and keeping jobs and make half as much money as graduates.
- Self-confidence is important. Recognize your child's achievements in both school and outside activities.
- Meet with your child's teachers and other school personnel. They can provide important insights into the child's school performance and make suggestions for improvement.
- Get to know your child's friends and classmates. They can have influence over your child's school performance. Lack of friends or problems with classmates can also affect school performance and desire to attend.
- Learn to identify the symptoms of teenage drug and alcohol abuse.
- Seek treatment for any drug or alcohol issues that your child may have.
- Help your child develop an interest in extracurricular school activities such as sports, band, clubs, etc.
- Get involved with the PTA or School Board.

## **STUDENT RIGHTS AND RESPONSIBILITIES**

Students are the only reason schools exist. They are not the property of the school. All students are worthy human beings deserving respect and the best efforts of the school staff. Student rights must be vigorously respected and protected at all times. In turn, all students have certain obligations to be contributing participants in the learning process and to be good citizens within the school community. The basic rights and responsibilities of students at all levels include the following:

### **ALL STUDENTS HAVE THESE RIGHTS:**

- To be safe.
- To be respected as individuals.
- To be treated fairly and without prejudice.
- To learn without disturbance or distraction.
- To have personal property respected and protected.

- To express views and to be heard.
- To be exposed to competent teachers and positive adult role models.
- To be challenged with materials and instructional techniques commensurate with their abilities and learning styles.
- To be free from harassment.
- To learn in a drug-free, smoke-free and violence-free environment.
- To be called what they choose (i.e., African American, Hispanic, Asian American, etc.)
- To have access to appropriate grievance procedures.

### **ALL STUDENTS HAVE THESE RESPONSIBILITIES**

- Treat others fairly and without prejudice.
- Obey laws and comply with reasonable school rules.
- Respect other people's rights, property and reputations.
- Contribute to a positive and safe school environment.
- Participate in their own learning (i.e., to strive to learn to the best of their abilities).
- Respect and maintain school property.

### **ALIOUIPPA SCHOOL DISTRICT'S DRESS AND GROOMING GUIDELINES**

The Board recognizes that each student's mode of dress and grooming is a manifestation of personal style and individual preference. The School Board will not interfere with the right of students and their parents to make decisions regarding their appearance except when their choices affect the educational program of the school or the health and safety of others.

The Board takes pride in the appearance of the students. Student dress reflects the quality of the school, of their conduct, and of their schoolwork. All students are expected to dress and groom themselves neatly in clothes that are suitable for school activities. Clothes should be worn in a manner which will not detract from the learning environment.

Personal appearance should not disrupt the educational process; call undue attention to the individual; violate federal, state or local health and obscenity law; or affect the welfare and safety of the student or his/her classmates.

Taking into consideration the previous statements, the following rules will apply to all students to assure an atmosphere of appropriate school dress:

1. The faculty and administration have the right to appropriately question a student's dress and take necessary action.
2. Students are expected to wear clean and neat clothes. All necessary body parts covered. No frayed/torn jeans or pants that show an excessive amount of skin. If frays or tears are considered excessive, the student must wear leggings under the jeans or pants.
3. Students are not permitted to wear hats, hoodies on their heads, head coverings of any sort, scarves/bandanas, gloves, winter head bands, shower caps, or non-prescription sun glasses (for which proper medical

- documentation is required). If a head garment is required for religious reason, proper documentation from a religious leader is required.
4. Clothing with obscene or vulgar language or pictures, or language that can be interpreted more than one way: emblems, badges or insignias that identify groups or gangs may not be worn.
  5. No clothing or jewelry advertising drugs, alcohol, tobacco, or with profanity will be permitted.
  6. Tank or spaghetti strap tops that do not properly cover undergarments, tube tops, halter-tops and mini-skirts are unacceptable. Tops exposing the chest or bare midriff are not permitted.
  7. Proper undergarments must be worn at all times.
  8. Mesh or see-through shirts of any type are not permitted without an undershirt or camisole (cami).
  9. Knit and/or spandex tights may only be worn under shorts, slacks, pants, skirts or other garments.
  10. Hair combs, hairnets and hair curlers are not permitted.
  11. Physical education bicycle, jogging, or short shorts are not permitted.
  12. Baggy pants that sag below the waistline are unacceptable. Belts are to be worn to prevent pants from sagging.
  13. Shorts, dresses and skirts must be three inches above the knee. No spandex skirts or dresses are permitted.
  14. Bedroom slippers, slides (athletic, satin, fur, etc.), or flip flops are not permitted.
  15. Pajamas are only permitted during special approved activities.
  16. Male undershirts often referred to as "wife beaters" are not permitted to be worn as well as sleeveless shirts which are cut out well below the underarm area.

**Violations of the above guidelines will be handled immediately through the cooperative efforts of the student, his/her parents, faculty and administration. Continued infractions could result in out of school suspension or further disciplinary actions.**

## **STUDENT DISCIPLINE**

This policy is the result of a concerted effort on the part of the faculty and administration. This information has been prepared and presented so that it will be of great value in helping you to adjust to our school, and to become an integral part of it.

The ultimate purpose of education is to help each student become an effective citizen in a democracy. To develop and accept the responsibilities and obligations of good citizenship will help us to participate successfully in the world of tomorrow. Remember that success in this school will be directly proportional to your efforts.

Every individual is entitled to courtesy and consideration in relationships with fellow students and with instructors. This should be mutual. Actions, which injure

others, damage private or public property, impede or obstruct the learning process and/or operation of the school, are not characteristics of a mature, responsible citizen will not be tolerated. Anyone who engages in the actions described above will be subject to either school disciplinary action or legal action, or both.

The following **are not** allowed on school premises, school-sponsored transportation, or at school sponsored activities: **smoking, possession, distributing, use or being under the influence of alcohol, narcotics, illegal drugs or chemical substances; possession of paraphernalia; possession of guns, knives, or any other objects which are classified as dangerous weapons; and gambling for money.**

Other violations include insubordination; flagrant disrespect of faculty members or fellow students; theft or unauthorized use or possession of school property; vandalism; cursing or use of vulgar language; fighting or use of physical force to settle disagreements; highly disruptive or improper student behavior, is also considered a serious disciplinary problem.

Problems sometimes arise because students bring non-educational articles to school. Such items include, but are not limited to, such things as games, playing cards, tape players, radios, pagers/cell phones, etc. If they are brought to school, they will be taken away. The item will be returned to the parent only. Violations of the above regulations will subject a student to disciplinary action that could include suspension, and in severe cases expulsion. In addition, if a student through actions, behavior, dress appearance, or presence disrupts or can reasonably be expected to disrupt the educational process of the school, the student will be subject to school disciplinary action.

The Board acknowledges that conduct is closely related to learning; an effective instructional program requires a wholesome and orderly school environment, and the efficacy of the educational program is in part reflected in the behavior of students and employees.

Students disciplinary records will be kept on file until that student has graduated or officially been removed from the high school roster.

The Board shall require each student of this district to adhere to the rules and regulations established through the joint effort of the administration, teachers and students, and to submit to such disciplinary measures as are appropriately assigned for the infraction of those rules as are expressed in the Code of Behavior (Discipline Code).

The Superintendent shall make known rules and regulations for student conduct which carry out the purposes of this policy and are not arbitrary, but bear a reasonable relationship to the need to maintain a school environment conducive to learning; do not discriminate among students, or demean students; and do not violate any individual rights constitutionally guaranteed to students.

## **DISCIPLINE CODE**

### **Peer Mediation Program**

To deal with conflict, a trained peer mediator facilitates a process of communication and problem solving that leads to resolution. Peer mediation is explained to students as "a chance to sit face to face and talk, uninterrupted, so each side of the dispute is heard. After the problem is defined, solutions are created and then evaluated. When an agreement is reached, it is written and signed.

Unresolved conflicts often result in hurt feelings, loss of friends, increased anger or frustration and sometimes physical violence. Considering the competitive nature of our society, it is not surprising that conflicts become contests where there must be a winner and a loser. This win/lose attitude is a separate and disconnected view of society

Peer mediation redefines conflicts in such a way that no one has to lose. It is a commitment to cooperate and create new possibilities beneficial to all involved. Peer mediation teaches democratic principles and offers a forum through which students can participate in their school community.

#### **Who can ask for peer mediation?**

- Student
- Teacher
- Parent
- Members of the peer mediation

### **USE OF PRESCRIBED MEDICATIONS**

The Aliquippa School District shall not be responsible for the diagnosis and treatment of student illness. Parents have the primary responsibility for the health of their children. The district recommends that medication be given at home. Through a conference with the parents, physicians should be made aware that they can change schedules so medication can be given before and after school hours.

In the event medication must be administered during school hours, a plan for verifying, administering and storing medication will be implemented to prevent mistakes, illegal acts and subjection to possible liable situations for school nurses, administrators and the district.

The guide for School Nursing Services in Pennsylvania states that medication should be given only as prescribed by a physician (initially published in 1962 and revised in 1968 and is considered an official document of the Department of Health). A legal opinion of the Department of Justice (August 16, 1978) supports the above statement.

1. The school nurse may administer prescribed medications.
2. School district policy regarding the administration of medication is required.
3. Except in truly emergency situations, teachers may not administer individually prescribed medication. For the purpose of this policy, medication shall be "medication prescribed by a physician."

Before any medication is to be administered to any student during school hours, the district shall require completion of a form provided by the school nurse to the parent and prescribing physician that must be signed and returned to the school nurse. Information, including the purpose of the medication, dosage, time and circumstances under which the medication shall be administered, name of physician prescribing medication; the length of period for which medication is prescribed, and possible side effects of the medication must be included. Medication must be sent to the school in the original container with the prescription labeled by a pharmacist or physician.

The medication is to be given directly to the school nurse or designee. The nurse should be notified when the child's medication is changed. The school nurse, when available, is the primary person to administer medication. In the absence of the school nurse, the school principal designates the person(s) to administer medication. Prescription medication will be kept in a locked medicine cabinet (or

refrigerator) in the nurse's office. Students in grades 7-12 will be responsible for reporting to the nurse's office or the main office at the time the medication is to be given. In grades K-6, individualized plans will be made for the administration of medication by the nurse, the principal, or a designee. It is recommended that parents be fully informed if the school nurse is not available and the parent cannot administer the medication, someone designated by the principal will give the medication. A log or a written record indicating the administration of medicine shall be established. Documentation should be in ink and indicate name of student, time of day, name and dosage of medication, and name of person administering the medication. The documents shall become part of the student's health record and be kept on file in the office of the school nurse.

**NOTE:** Students who dispense over-the-counter, look-alike drugs and/or prescribed medications shall result in suspension from school under the Drug and Alcohol Policy.

### **BREATHALYZER POLICY**

Students reasonably suspected of consuming or having consumed alcohol may be required to take a test which determines blood alcohol concentration. The test will be conducted by specially trained personnel. Refusal to take the test may result in the student being suspended from school. If the results are negative and the student still exhibits abnormal behavior, further assessments will be required.

### **DRUG URINALYSIS POLICY**

Students reasonably suspected of being under the influence of a controlled substance may be requested to have their urine tested for illegal mood altering substances. Written parental/guardian consent will be required before this test is done by specially trained personnel.

### **PROBATION PERIOD**

A student in violation of the district Drug and Alcohol Policy may be placed on probation within the school following the rules as noted below:

1. The student will be placed on probation for one semester.
2. The student will not have restroom privileges or a hall pass without written authorization from an administrator or teacher.
3. The student will not be able to participate in or attend any extra-curricular activities (including dances or sports). Note: This will be reviewed after treatment program is completed.
4. The student must meet periodically with a principal, assistant principal, or counselor during the probationary period.
5. The student must adhere to all school rules and policies. The parent(s) of the student on probation must call and inform the school of any absences. This call must be made by 7:00 a.m. on the day of absence.

6. If the probationary rules are broken, the student will be referred to the superintendent for a formal hearing and may be recommended for expulsion from school.

### **LOCKER SEARCH POLICY**

The Board acknowledges the need for safe in-school storage of books, clothing, school materials and other personal property and may provide lockers and cabinets for such storage.

All lockers are and shall remain the property of the school district. Students are encouraged to keep their assigned lockers or cabinets closed and locked against incursion by other students, but no student may use a locker as a depository for a substance or object which is prohibited or which constitutes a threat to the health, safety or welfare of the occupants of the school building or the building itself.

1. The Board reserves the right to authorize its employees to inspect a student's locker when such employee has reason to believe that the locker is improperly used for the storage of contraband, a substance or object the possession of which is illegal, or any material which poses a hazard to the safety and good order of the schools.
2. The Superintendent shall develop procedures to implement this policy which shall require:
3. All requests or suggestions for the search of a student's locker shall be directed to the school building principal.
4. The principal or representative shall be present whenever a student's locker is inspected.
5. The principal shall be responsible for the safekeeping and proper disposal of any substance, object or material found to be improperly stored in a student's locker.
6. The principal shall be responsible for the prompt recording in writing of each locker inspection which record shall include the reasons for the search, persons present, objects found and their disposition.
7. Whenever the search of a student's locker is prompted by the reasonable suspicion that the content of a student's locker creates an emergency, the principal may open the locker as soon as it is necessary to do so to discharge properly his/her duty to protect the persons and property in the school.

If a student refuses to comply with the request of the school administration to a locker search, particularly where the health, safety and welfare of students are at risk (per school policy), that individual could receive a five to nine-day suspension. It should also be noted that the student will not be readmitted into school without an Administrative Review Board Hearing at the Elementary School.

## **BUS RULES AND GUIDELINES**

Parents must be at the bus stop with Kindergarten children or students who are disabled. Kindergarten students and disabled students not met by a parent or parent designee will not be dropped off at their stop. Any child in that situation will be returned to the building of origin (elementary school). Parents of disabled children are responsible to take them to the bus and receive them when they exit the bus.

The safety of our children is of utmost importance to us. Students are assigned to the bus that coincides with the address we have on file. Therefore, exception will be made only in cases of **extreme serious family situations**. In these cases, the decision of the building principal will be final. We appreciate your cooperation and understanding and thank you for your assistance. Please be informed that all pupils have been assigned a specific bus according to the location of their residence. The assigned bus is the vehicle they are to ride each day. Parents, who have a need for their children to go to the home of a grandparent or babysitter, must make such arrangements without involving a change in transportation assignment. Individual student transportation assignments will be strictly adhered to without exception. In the event that a transfer should be granted and **for the safety of our children**, the following procedures must be adhered to:

1. **The parent/guardian must submit to the building principal/designee a request, in writing including a signature and phone number, specifying the reason for the request.**

### **GUIDELINES FOR SCHOOL DISTRICT STUDENT ASSISTANCE TEAMS**

1. The school district will develop a core team including a central office representative (i.e. Superintendent, Assistant Superintendent, Director of Curriculum and Instruction, Director of Pupil Services, etc.) and a building administrator (i.e. Principal, Assistant/Vice Principal) from building where a Student Assistance Team will be instituted. These two team slots are non-negotiable, and the administrators must attend the entire training. Past experience has demonstrated that training and leadership has served to produce more successful teams. Administrators, who are lost through attrition, must be replaced on the Student Assistance Teams. New administrators, serving on Student Assistance Teams, must be trained.
2. Remaining team members (at least four per building) may be representatives from any or all of the following groups: teacher, counselor, psychologist, nurse or other related professional staff. Representatives from the county mental health and drug/alcohol systems will be appointed as liaisons to core teams and will attend training with

their teams. Should the district have difficulty in securing this service, the Superintendent should contact the county D&A and/or ME administrator.

3. The school district will establish at least two common team meeting times per week/cycle for all trained core team members. The team is expected to meet for a minimum of 80 minutes per week. Common planning time should be used for case management/intervention activities. It is strongly recommended that this meeting time occur during the contract day, and not be assigned during the teacher preparation periods.
4. The school district will attend the training contracted for the team. All team members must attend the entire training. Participants not attending all sessions at the training will not be eligible for Student Assistance Team certification.
5. The school district will allocate at least seven hours of in-service/ faculty meeting time throughout the first calendar year of program implementation. The in-service would be to inform faculty/support staff about the components of the Student Assistance Team and explain the procedures for making referrals to the core team. After the first year, topics related to the Student Assistance Team should become a part of yearly in-services.
6. All new faculty/staff should receive, through the district's orientation program, an overview about the Student Assistance Team and explain the procedures for making referrals to the core team. Information about the Student Assistance Team should be made available to all students and parents on a yearly basis.
7. The school district will in-service the School Board on the Student Assistance Team prior to training and update on Student Assistance Team activities on a regular basis.
8. The school district will develop/revise the district's drug/alcohol and suicide/mental health policies to incorporate the Student Assistance Team. Prior to Board approval, policies should be reviewed by the Student Assistance Team training provider. Both policies should be reviewed by district administration at least once every two years and, if necessary, revisions adopted by the Board.
9. The school district will develop guidelines on how parents will become involved in the Student Assistance Team process.
10. The school district will establish school-based intervention and aftercare (non-clinical) groups within one calendar year of completion of the initial

SAT training. Students returning from in-patient treatment should receive school-based support services at least one period per week. Group facilitators must attend a group facilitators' training, with an emphasis on adolescent issues, prior to conducting groups. All groups conducted in the school should be co-facilitated by at least one school person. A plan for coordinating services with drug/alcohol and mental health providers should be developed.

11. The school district will provide time for team maintenance activities at least twice a year. Drug/Alcohol and Mental Health Agency liaisons should be included in maintenance activities.
12. The agency service provider and school district will negotiate and implement a written cooperative agreement with the local drug/alcohol and mental health agency service system which outlines the following: central referral procedures, consultation/education services, designated liaisons from the D&A and MII systems, assessment services, emergency crisis assistance, and provisions for treatment - including after care. This letter of agreement will be written and signed by agency administrators/directors and school district administrators. The agreement and/or any changes will be negotiated at a minimum of once per year. A copy of this letter of agreement must be sent to your county Mental Health Administrator and Single County Authority Director.
13. The school district will utilize the Conflict Resolution Process if problems occur between service provider agencies and the school district (copy attached).
14. The school district will submit annual data on the Aggregate Student Tracking Form and other information regarding the Student Assistance Program, as requested by the Commonwealth.

### **SCHOOL VISITATIONS**

The Board welcomes and encourages visits to school by parents, other adult residents of the community and interested educators. To ensure order in the schools, it is necessary to establish guidelines governing school visits.

The Superintendent or building principal has the authority to prohibit the entry of any person to a school of this district in accordance with the guidelines.

The Aliquippa Elementary School requires that ALL VISITORS sign in at the welcome desk with security. Visitors MUST present a valid government issued photo ID or driver's license PRIOR to entering the building. Those visitors who do not have a scheduled meeting with school personnel, MUST be given approval by the administration to enter the building. Security will clear all visitors with the administration or appropriate school personnel. Parents/guardians who are there to

pick up their child for an early dismissal must also present the appropriate documentation before entering.

Family members/family friends are not permitted to eat meals with students, visit classrooms, or follow students throughout their school day. The administration reserves the right to permit these types of visits on an individual basis; however, this would only occur in rare cases when absolutely necessary. If visiting in the building, please remember you are not in the building to visit with other children and/or interfere with another child's daily functioning. These regulations assist in the general safety of the students, as well as in helping with the overall effectiveness of the building routines.

For the protection of our students, volunteers, chaperones, and visitors are asked to refrain from taking pictures of students with their phones during school events and sharing them via social media. Cooperation in this matter would contribute to a collective responsibility to protect our students.

Any person who, in the school building or on the school premises, conducts himself/herself in a manner detrimental to the educational process, or so conducts himself/herself as to disturb or annoy pupils or school personnel, or so as to interrupt the educational program or any public activity being held on school premises or in the school building, or who fails to report to the office as provided above, may be requested to leave the building or premises by the principal or person in charge and on failure to leave, will be considered a trespasser.

**NOTE:**

**Beginning last school year, ALL visitors will have their belongings (purses, bags, back packs, etc.) SEARCHED PRIOR to entering the building.**

**SCHOOL NURSE/CLINIC INFORMATION**

Sherrie Palmer-Beauford, School **Nurse**, provides school health care at the Elementary School. The school nurse, as required by state law, provides the following services:

Any other medication the student may need to take in school on a short term basis, such as antibiotics, pain medication, cold or allergy preparations, are also to inform the school nurse. There are specific forms that the parent, doctor, and/or student must sign in order for these medications to be administered and/or carried by the student. Any over the counter (OTC) medications such as Tylenol or ibuprofen requires **written** parent permission before it will be administered.

### **COMMUNICABLE DISEASES**

The law permits the exclusion of any student from school who is suspected by the school nurse of having any of the communicable diseases listed below. Readmission to school shall be contingent upon the school nurse or, in the absence of the school nurse, a physician, verifying that the criteria for readmission have been satisfied. The diseases, the periods of exclusion and the criteria for readmission are as follows:

The following diseases require that students be excluded from school for the time specified below:

### **MEDICAL EMERGENCIES**

The Aliquippa Elementary School has a medical emergency plan in place:

1. First person at the scene will assess the victim, stay with the victim, and send for help and the AED (automatic external defibrillator)
2. Office staff will call 911, and announce a Code Red and which area of the building the code is in
3. Persons trained in CPR/AED near the area will respond
4. Other staff will assist with securing the area, crowd control, and direct emergency personnel to the scene.

THE AED IS LOCATED ACROSS FROM THE MAIN OFFICE

There is an ongoing training in CPR/AED for the staff. In addition, all students who are seniors have also been trained as part of their health curriculum.

### **SCHOOL EMERGENCY PROCEDURE**

In case of emergency and/or need of medical or hospital care:

### **FIRST AID AND ILLNESS**

Illness or injuries occurring during school hours will be given first aid or evaluation by the school nurse. The child's personal health care provider should evaluate

injuries occurring at home or when school is not in session. Students are not permitted to call home without first being evaluated by the school nurse.

Substantial effort will be made to contact the parent or guardian immediately should a major accident or illness occur. It is important that a parent complete the emergency card carefully with a reliable phone number where he/she or another designated person may be reached. Should any information on the emergency card change during the school year, it is imperative that the school be notified immediately.

## **HOMEWORK PARENT BEST PRACTICES**

### **Parent/Teacher Communication:**

- Meet teachers early in the year.
- Find out about homework policies, degree of parental involvement with homework.
- Maintain communication throughout the year.
- Attend orientation, open house/back-to-school night and parent/teacher conferences.
- Check the district web page for district and school information.
- Check various means of communications (folders, backpacks, assignment notebooks/ planners, homework hotlines).
- Read school newsletters.
- Communicate with the teacher if you have concerns regarding your child's homework or if your child demonstrates difficulty completing homework responsibilities.

### **At Home:**

- Give homework assignments a high priority when considering family activities and obligations.
- Establish a consistent homework routine at an early age.
- Build consistency by having an educational time each day at home even if your child does not have homework.
- Provide a quiet organized place with needed materials.
- Establish a time of day for homework.
- Accommodate for differences in your children's abilities.
- Keep in mind what works for one child may not necessarily work for others.
- Reinforce good study habits.
- Monitor course selection and number of extracurricular activities to allow for recreation/relaxation time.
- Maintain a healthy sleep and eating schedule.

### **Parent Support:**

## **PARENTS RIGHT TO KNOW**

Dear Parent:

On January 8, 2002, President Bush signed into law the "No Child Left Behind Act"(NCLB). NCLB is designed to improve student achievement by increasing federal involvement in public education both at the state and local level. Beginning this year, NCLB will require significant changes to schools that receive Title I funding. Your child's school receives Title I funding and is covered under NCLB.

NCLB requires:

- Jan 8, 2002- Instructional paraprofessionals paid by Title I funds and/or working in a school-w-ide program hired on or after this date must meet new requirements as defined by NCLB.
- July 1, 2002- Teachers paid by Title I funds and/or working in a school-wide program hired on or after this date must meet new requirements as defined by NCLB.
- Jan 8, 2006- All instructional paraprofessionals paid by Title I funds and/or working in school-wide programs must meet new minimum qualifications as defined by NCLB.
- End of 2005-06 School year- All core academic teachers must be "highly qualified" as defined by NCLB.

Under NCLB, parents have the right to know the professional qualifications of their children's teacher(s). This letter is to inform you of your rights to ask for the following information about each of your child's classroom teachers:

- Whether the State of PA has licensed or qualified the teacher for the grades and subjects he or she teaches.
- Whether the teacher is teaching under an emergency permit or other provisional status through which state licensing criteria have been waived.
- The teacher's college major, whether the teacher has any advanced degrees and, if so, the title of the degrees.

## **ANNUAL FERPA NOTIFICATION OF RIGHTS AND DESIGNATION OF DIRECTORY INFORMATION NOTICE OF RIGHTS**

The family educational rights and privacy act ("FERPA") affords parents, students over 18 years of age ("eligible students"), and parents of dependent students certain rights with respect to education records. 3. Special education records;
4. Disciplinary records;
5. Medical and health records that the school creates or collects and maintains;
6. Documentation of attendance, schools attended, courses taken, awards conferred, and degrees earned; and
7. Personally identifiable information such as a student's identification code, social security number, picture, or other information that would make it easy to identify or locate a student.

### **Certain Types of Records Are Not Considered Education Records Under FERPA:**

1. Personal notes made by teachers and other school officials that are not shared with others;
2. Law enforcement records created and maintained by a school's or a district's law enforcement unit specifically for law enforcement purposes (as distinct from student disciplinary and other non-law enforcement purposes); and
3. Records on students 18 years of age or older that are made or maintained by a medical or other recognized professional or paraprofessional acting in his or her professional capacity.

### **Your Rights with Respect to Education Records Include the Following**

1. **Right to Inspect:** A parent or eligible student has the right to inspect and review the student's education records maintained by the district within 45 days of the district's receipt of a written request for access. A parent or eligible student should submit to the school principal (or superintendent) a written request that clearly identifies the record(s) he/she wishes to inspect. The principal will make arrangements for access and notify the parent or eligible student, in writing, of the time and place where the student's records may be inspected.
2. **Right to request amendment:** a parent or eligible student has the right to request the amendment of the student's education record(s) that are believed to be inaccurate or misleading. A parent or eligible student may

submit a written request for amendment to the school principal (or superintendent). This request should clearly identify the part of the record that the parent of eligible student wants changed and specify why it is inaccurate or misleading.

If the record is not amended as requested, the district shall notify the parent or eligible student of the decision in writing and shall advise him/her of his/her right to a hearing on the request for amendment. Additional information on the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. **Right to consent to disclosure:** a parent or eligible student has the right to consent to disclosures of personally identifiable information contained in the student's education record, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the district in an administrative, supervisory, academic or research, or support staff position, including law enforcement unit personnel and health staff; a person or company with whom the district has contracted to perform a special task, such as an attorney, auditor, medical consultant or therapist; a person serving on the school board; or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if he/she needs to review an education record to fulfill his/her professional responsibilities. Additionally, upon request, the district may disclose education records without consent to officials of other schools in which students seek or intend to enroll. Furthermore, no child left behind act requires the district to facilitate the transfer of disciplinary records with respect to a suspension or expulsion to any private or public elementary or secondary school for any student who is enrolled or seeks, intends or is instructed to enroll on a part-time or full-time basis in the school. Disclosure without consent may be made in case of emergency as determined by the district or to report crimes occurring at school or involving the school or its personnel.

4. **Right to complain:** a parent or eligible student has the right to file a timely complaint with the U.S. Department of Education concerning alleged failures by the district to comply with FERPA requirements. Complaints should be directed to:
